Re: Miss Mutiyat Opeyemi AKINTAYO

Miss Mutiyat Opeyemi Akintayo has asked me to write a reference letter in support of her application for scholarship to undergo M Sc in Environmental Management and I am delighted to oblige her.

I have known Miss Akintayo for over 5 years now as her teacher and as her project supervisor of her final year project during her undergraduate program at Ladoke Akintola University of Technology. For these years I had opportunity to teach and assess her. During this time, also we had opportunities to discuss issues relating to academia and other related issues in general. Miss Akintayo and I have maintained close contact to date and therefore I am in a position to be able to say a few things in support of her application.

Miss Akintayo was educated at Ladoke Akintola University of Technology, Ogbomoso, Nigeria for her First degree and graduated with second class upper division. The class of her first degree indicated that she was an outstanding student that displayed exceptional academic and scholastic abilities.

Both in the theoretical and practical aspects of her discipline, the applicant is current, sound, thorough and able to communicate ideas in both written and oral forms of English Language effortlessly. Miss Akintayo has a strong analytical mind, she is meticulous and detail-oriented in whatever she does. She is rigorous and critical in thinking and astute in judgment, skills that will help her make a successful academic career. On a personal level, Miss Akintayo is full of energy, physically strong and mentally alert, morally upright and trustworthy. I believe that her addition to the crop of graduate student that will benefit from the scholarship program in your institute university will be a great complement and an asset to the academic programmes there.

I recommend her application for your kind consideration without any reservation.
